award a fixed price contract (lump sum, unit price, or a combination of the two) when procuring contractor support, regardless of the procurement method selected, unless the recipient obtains the award official's prior written approval.

(c) Time and material contracts. The recipient may use time and material contracts only if no other type of contract is suitable, and if the contract includes a ceiling price that the contractor exceeds at its own risk.

§ 35.6580 Contracting with minority and women's business enterprises (MBE/WBE), small businesses, and labor surplus area firms.

- (a) *Procedures.* The recipient must comply with the six steps described in 40 CFR 31.36(e)(2) to ensure that MBEs, WBEs, and small businesses are used whenever possible as sources of supplies, construction, and services. Tasks to encourage small, minority, and women's business utilization in the Superfund program are eligible for funding under Core Program Cooperative Agreements.
- (b) Labor surplus firms. EPA encourages recipients to procure supplies and services from labor surplus area firms.
- (c) "Fair share" objectives. It is EPA's policy that recipients award a fair share of contracts to small, minority and women's businesses. The policy requires that fair share objectives for minority and women-owned business enterprises be negotiated with the States and/or recipients, but does not require fair share objectives be established for small businesses.
- (1) Each recipient must establish an annual "fair share" objective for MBE and WBE use. A recipient is not required to attain a particular statistical level of participation by race, ethnicity, or gender of the contractor's owners or managers.
- (2) If the recipient is awarded more than one Cooperative Agreement during the year, the recipient may negotiate an annual fair share for all Cooperative Agreements for that year. It is not necessary to have a fair share for each Cooperative Agreement. When a Cooperative Agreement is awarded to a recipient with which a "fair share" agreement has not been negotiated, the

recipient must not award any contracts under the Cooperative Agreement until the recipient has negotiated a fair share objective with EPA.

§35.6585 Cost and price analysis.

- (a) *General.* The recipient must conduct and document a cost or price analysis in connection with every procurement action including contract modification.
- (1) Cost analysis. The recipient must conduct and document a cost analysis for all negotiated contracts over \$25,000 and for all change orders regardless of price. A cost analysis is not required when adequate price competition exists and the recipient can establish price reasonableness. The recipient must base its determination of price reasonableness on a catalog or market price of a commercial product sold in substantial quantities to the general public, or on prices set by law or regulation.
- (2) Price analysis. In all instances other than those described in (a)(1) of this section, the recipient must perform a price analysis to determine the reasonableness of the proposed contract price.
- (b) Profit analysis. For each contract in which there is no price competition and in all cases in which cost analysis is performed, the recipient must negotiate profit as a separate element of the price. To establish a fair and reasonable profit, consideration will be given to the complexity of the work to be performed, the risk borne by the contractor, the contractor's investment, the amount of subcontracting, the quality of its record of past performance, and industry profit rates in the surrounding geographical area for similar work.

§ 35.6590 Bonding and insurance.

- (a) General. The recipient must meet the requirements regarding bonding described in 40 CFR 31.36(h). The recipient must clearly and accurately state in the contract documents the bonds and insurance requirements, including the amounts of security coverage that a bidder or offeror must provide.
- (b) *Indemnification*. When adequate pollution liability insurance is not available to the contractor, EPA may

§ 35.6595

indemnify response contractors for liability related to damage from releases arising out of the contractor's negligent performance. The recipient must comply with the requirements regarding indemnification described in section 119 of CERCLA.

(c) Accidents and catastrophic loss. The recipient must require the contractor to provide insurance against accidents and catastrophic loss to manage any risk inherent in completing the project.

§35.6595 Contract provisions.

- (a) *General.* Each contract must be a sound and complete agreement, and include the following provisions:
- (1) Nature, scope, and extent of work to be performed;
 - (2) Time frame for performance;
 - (3) Total cost of the contract; and
 - (4) Payment provisions.
- (b) Other contract provisions. Recipients' contracts must include the following provisions:
- (1) Energy efficiency. A contract must comply with mandatory standards and policies on energy efficiency contained in the State's energy conservation plan which is issued in compliance with the Energy Policy and Conservation Act (Pub. L. 94-163).
- (2) Violating facilities. Contracts in excess of \$100,000 must contain a provision which requires contractor compliance with all applicable standards, orders or requirements issued under section 306 of the Clean Air Act (42 U.S.C. 1857(h)), section 508 of the Clean Water Act (33 U.S.C. 1368), Executive Order 11738, and EPA regulations (40 CFR part 15) which prohibit the use of facilities included on the EPA List of Violating Facilities under nonexempt Federal contracts, grants or loans.
- (3) Patents, inventions, and copyrights. All contracts must include notice of EPA requirements and regulations pertaining to reporting and patent rights under any contract involving research, developmental, experimental or demonstration work with respect to any discovery or invention which arises or is developed while conducting work under a contract. This notice shall also include EPA requirements and regulations pertaining to copyrights and

rights to data contained in $40\ \text{CFR}$ 31.34.

- (4) Labor standards. The recipient must include a copy of EPA Form 5720-4 ("Labor Standards Provisions for Federally Assisted Construction Contracts") in each contract for construction (as defined by the Secretary of Labor in 29 CFR part 5). The form contains the Davis-Bacon Act requirements (40 U.S.C. 276a-276a-7), the Copeland Regulations (29 CFR part 3), the Contract Work Hours and Safety Standards Act Overtime Compensation (940 U.S.C. 327-333), and the non-discrimination provisions in Executive Order 11246, as amended.
- (5) *Conflict of interest.* The recipient must include provisions pertaining to conflict of interest as described in §35.6550(b)(2)(ii) of this subpart.
- (c) *Model clauses*. The recipient must comply with the requirements regarding model contract clauses described in 40 CFR 33.1030 (1987).

§35.6600 Contractor claims.

- (a) *General.* The recipient must conduct an administrative and technical review of each claim before EPA will consider funding these costs.
- (b) Claims settlement. The recipient may incur costs (including legal, technical and administrative) to assess the merits of or to negotiate the settlement of a claim by or against the recipient under a contract, provided:
- (1) The claim arises from work within the scope of the Cooperative Agreement;
- (2) A formal Cooperative Agreement amendment is executed specifically covering the costs before they are incurred;
- (3) The costs are not incurred to prepare documentation that should be prepared by the contractor to support a claim against the recipient; and
- (4) The award official determines that there is a significant Federal interest in the issues involved in the claim.
- (c) Claims defense. The recipient may incur costs (including legal, technical and administrative) to defend against a contractor claim for increased costs under a contract or to prosecute a claim to enforce a contract provided:
